Country Strategic Plan 2019-2023 WFP Chad

November 2018

Chad is surrounded by crises, hosts the world's largest refugee population and suffers from infrastructure deficits

Lake Chad
Basin Crisis

Humanitarian access is challenging, notably during the rainy season.

Support to humanitarian community through service provision

Facing severe development challenges, the country ranks third to last in the Human Development Index

Through the Zero Hunger Review, the Government of Chad identified priority areas to which WFP will contribute through this CSP

The CSP supports national capacity development : emerging system of national social safety nets and unified beneficiary registration

Recurring needs for assistance can be reduced – by integrating relief with recovery and seasonal assistance with resilience building

SCOPE

Integrating WFP's efforts with those of partners

UN JOINT NUTRITION PROGRAMME : PROFORT

We have the right skills and the right staff in place to make it happen.
