Decision

The Board approved by correspondence the revision of the Algeria transitional interim country strategic plan and corresponding budget increase of USD 12,244,877 outlined in the present document.

8 November 2018

Focal points:

Mr M. Hadi Regional Director Middle East, North Africa, Eastern Europe and Central Africa email: muhannad.hadi@wfp.org

Mr S. Romain Country Director email: romain.sirois@wfp.org

World Food Programme, Via Cesare Giulio Viola, 68/70, 00148 Rome, Italy

Rationale

1. The proposed revision would extend the current transitional interim country strategic plan (T-ICSP) for Algeria by six months, to 30 June 2019, thus enabling the country office to continue ongoing discussions with the Government on the orientation of WFP activities in the interim country strategic plan. It would also accommodate the introduction of cash-based transfers (CBTs) for pregnant and lactating women and girls (PLWG). The country office, with technical inputs and support from the Regional Bureau Cairo, would continue to improve programming during the period based on the findings of a food security assessment and a decentralized evaluation of its nutrition activities.

Changes

Strategic orientation

2. The proposed revision would not result in any change to the strategic orientation of the T-ICSP.

Strategic outcomes

3. The strategic outcomes and activities would remain unchanged, although CBTs for PLWG would be introduced under activity 4, along with a new output ("Targeted PLWG benefit from cash-based transfers that improve their nutritional status and dietary diversity"). The introduction of CBTs would allow PLWG to access a selection of food products (eggs, tuna and dates) at local markets to improve the variety of foods they eat and support their specific nutritional needs. The composition of this specific additional food ration is based on a December 2014 protocol on malnutrition and anaemia for PLWG formulated by the Sahrawi health authorities, WFP and other stakeholders. WFP Algeria conducted a multisectoral assessment¹ in 2015 that provided evidence to support the use of CBTs on a small scale. PLWG attending health centres in the camps would be issued vouchers equivalent to USD 11 per month per person. The proposed transfer would complement the nutrition programme for malnourished PLWG.

Beneficiary analysis

4. The target beneficiaries would remain the same overall, but pilot livelihood activities would target an additional 141 refugees (38 boys/men and 103 girls/women).

TABLE 1: FOOD AND CASH TRANSFER BENEFICIARIES BY STRATEGIC OUTCOME AND ACTIVITY										
Strategic	Activity	Current		Increase/decrease			Revised			
outcome		Boys/ men	Girls/ women	Total	Boys/ men	Girls/ women	Total	Boys/ men	Girls/ women	Total
1	1. Provide unconditional general food assistance to food- insecure refugees	49 153	75 807	124 960	0	0	0	49 153	75 807	124 960
	2. Provide complementary activities/ livelihood to Sahrawi refugees	423	657	1 080	38	103	141	461	760	1 221
	3. Nutrition- sensitive school meals for Sahrawi refugee children	20 101	20 399	40 500	496	504	1 000	20 597	20 903	41 500
2	4. Provision of MAM treatment and prevention to Sahrawi refugees, PLWG and children 6–59 months	7 500	14 860	22 360	-540	-1 260	-1 800	6 960	13 600	20 560
TOTAL*	L	49 153	75 807	124 960	0	0	0	49 153	75 807	124 960

Abbreviations: MAM = moderate acute malnutrition

* Excluding overlap.

Transfers

- 5. The food basket remains the same for activity 1 except for dates, which will be provided in kind and distributed during the month of Ramadan in May 2019.
- 6. The proposed revision provides for a USD 11 per person per month voucher for PLWG to be proposed to the authorities under activity 4 to support a more varied diet. The country office would develop the mechanism for the redemption of vouchers based on a multisectoral CBT assessment and share the list of authorized items (eggs, tuna and dates) with participating retailers.

TABLE 2: FOOD RATION (<i>g/person/day</i>) or CASH-BASED TRANSFER VALUE (<i>USD/person/day</i>) BY STRATEGIC OUTCOME AND ACTIVITY

Total (food and CBT value)	26 968	12 665 281	13 683	6 646 508	40 651	19 311 788	

Supply chain

7. In accordance with a recommendation from the 2016 nutrition survey, the country office is exploring the possibility of procuring iron-fortified wheat flour on international and local markets. Accordingly, the additional cost of fortified wheat flour has been added to the cost of food under this revision.

Other considerations

- 8. WFP will engage new partners to undertake the various actions necessary to use CBTs, including the distribution of vouchers to PLWG, beneficiary engagement and sensitization and monitoring and evaluation. Screening, beneficiary selection, prenatal consultations, vaccinations and other relevant services in clinics are particularly important and will be implemented by a partner specializing in public health management.
- 9. WFP will conduct on-site monitoring to ensure that PLWG beneficiaries receiving vouchers are satisfied. Post-distribution monitoring will be conducted through beneficiary home visits and contracted retailers will be monitored closely to ensure that they are offering high-quality food. Complaint mechanisms will be put in place to receive timely feedback from beneficiaries.

Cost breakdown

10. The additional costs of the proposed revision arise from the introduction of CBTs, adjustment of the cost of livelihood activities and the inclusion of dates under general food assistance.
