

Funding Evaluation – Management Response

1. Our robust funding approach will be ‘fit for the future’
2. Our new Strategic Plan will clearly define our ‘value add’ in both the humanitarian and development space (Recommendation 1) incl. the element of strategic partnerships
3. Evidence generation will be strengthened and used to advocate for resources (R2)
4. A focus on diversifying our funding base will be accelerated, including with the private sector, IFIs, and innovative financing channels (R3)
5. Internal processes & systems will be continued to evolve to meet the rapidly growing needs of WFP and our partners. (R 4 - 8)
