Supply Chain

WFP’s supply chain manages the entire process of end-to-end planning, procuring and delivering food assistance. This covers safe and quality food, goods and transport, as well as shared supply chain services for WFP, its partners and the entire humanitarian community.

Supply Chain Facts & Figures

In 2016, WFP:
- purchased 2.6 million metric tonnes (mt) of food, valued at US$1.36 billion from 93 countries
- delivered 3.5 million mt of food to 74 countries, of which 2.2 million mt travelled by sea
- supported over 450 NGO, government and UN partners through WFP’s Shared Humanitarian Services, such as air passenger transport, emergency stockpiling and dispatch, warehousing, and a range of supply chain solutions

Main Components of WFP’s Supply Chain

On any given day, WFP operates ...
- 5,000 trucks, 20 ships and 70 aircraft
- a network of 650 warehouses worldwide
- approximately 800 WFP-owned trucks and 35 fleet workshops
- thousands of retailers

Shared Humanitarian Services
