

## Supply Chain at a Glance

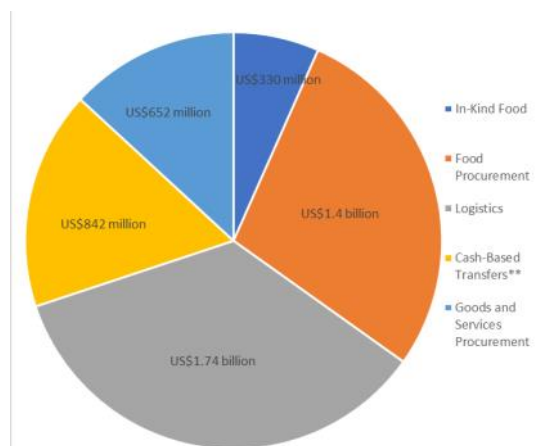

WFP's supply chain manages the entire process of end-to-end planning, procuring and delivering food assistance. This covers safe and quality food, goods and transport, as well as shared supply chain services for WFP, its partners and the entire humanitarian community.

### Supply Chain Facts & Figures

In 2017, WFP:

- Purchased 3 million metric tons (mt) of food, valued at US\$1.4 billion from 101 countries
- Delivered 3.8 million mt of food, of which 2.7 million mt travelled by sea
- Enabled the delivery of US\$842 million worth of cash-based transfers

### Main Components of WFP's Supply Chain\*

\*The figures listed cannot be added, as there are overlaps between some functions

\*\*Undertaken in collaboration with programme and finance experts

### On any given day, Supply Chain manages

- 5,000 trucks, 20 chartered vessels and 92 aircraft
- Network of 650 warehouses worldwide
- Approximately 750 WFP-owned trucks and 35 fleet workshops
- Tens of thousands of retailers

### Shared Humanitarian Services
