

World Food
Programme

WFP/Marco Frattini

Millions of people in **Yemen** are on the edge of starvation.

Without the UN World Food Programme, most would be there already. Many, in fact, would have died.

Money alone won't end hunger in Yemen. The fighting must stop.

But until the weapons fall silent, your contribution could keep a child alive.

Every donation helps.

Please give now: wfp.org/Yemen
