1. Making reference to the draft full country strategic plan (CSP) for Côte d'Ivoire for the period 2019–2023, this short-term interim country strategic plan (ICSP) consists of activities that continue WFP's current projects in the country. It seeks the Executive Board's approval by vote by correspondence of the implementation of such activities during the period from January to March 2019 pending the Board's approval of the CSP at its 2019 first regular session. This early start is necessary to provide operational continuity until the Executive Board's approval of the CSP.
2. To ensure adequate governance and oversight, all strategic outcomes and activities under the short-term ICSP are based on previously approved projects and ongoing activities. The short-term ICSP will include no strategic outcomes or activities that do not stem from existing projects, and such outcomes and activities will be implemented only under the CSP after its approval by the Executive Board. Once approved, the CSP will supersede this short-term ICSP.
3. Under the short-term ICSP WFP will assist the Government of Côte d'Ivoire and partners in working towards the following five strategic outcomes through five activities:
  - **Strategic outcome 1:** Primary-school-age children and their households in food-insecure areas have access to adequate and nutritious food all year (Sustainable Development Goal (SDG) 2.1)

**Focus area:** Root causes

**Key activity:**

    - Activity 1: Provide school meals, take-home rations and complementary services to primary-school-age children during the school year and promote the purchase of locally produced food for school meals.
  - **Strategic outcome 2:** Populations affected by shocks have access to food to cover their basic food and nutritional needs during and in the aftermath of shocks (SDG 2.1)

**Focus area:** Crisis response

**Key activity:**

    - Activity 2: Provide an integrated assistance package to affected populations, including food assistance, social behaviour change communication and specialized nutritious food to children aged 6–59 months, pregnant and lactating women and girls and people living with HIV, to improve access to food and prevent malnutrition.
  - **Strategic outcome 3:** Vulnerable food-insecure populations in targeted areas – particularly children, women of child-bearing age and people living with HIV – have improved nutritional status by 2023 (SDG 2.2)

**Focus area:** Root causes

**Key activity:**

    - Activity 3: Support the implementation of the national nutrition programme, with a focus on the development and implementation of a gender-responsive social behaviour change communication strategy; the implementation of the national strategy for the fortification of regularly consumed staples; enhancement of the primary education curriculum to include nutrition; and the generation of evidence on the activities in the national multisectoral nutrition plan.

- **Strategic outcome 4:** Targeted populations and communities have stronger livelihoods, are more resilient to climate and other shocks and benefit from more efficient and equitable value chains and sustainable food systems by 2023 (SDG 2.4)

**Focus area:** Resilience building

**Key activity:**

- Activity 4: Provide an integrated and gender-transformative assistance package to smallholder farmers, especially women's farmer groups, comprising training on good agricultural practices, equipment and social behaviour change communication-related activities that place value on local agricultural potential, asset creation and targeted food assistance; and provide technical support for generating evidence to inform the scale-up of farmer groups' activities.

- **Strategic outcome 5:** National institutions have strengthened capacity to better target and manage food security, nutrition and social protection programmes by 2023 (SDG 17.9)

**Focus area:** Root causes

**Key activities:**

- Activity 5: Provide technical support to national institutions in their efforts to address school feeding, food security, nutrition, social protection and emergency preparedness and response.

4. WFP will reach beneficiaries under the short-term ICSP as summarized in table 1.
