Indonesia: An Evaluation of WFP's Country Strategic Plan (2016 – 2018)

Country Strategic Plan Evaluations (CSPEs) encompass the entirety of WFP activities during a specific period. Their purpose is twofold: 1) to provide evaluation evidence and learning on WFP's performance for country-level strategic decisions, specifically for developing the next Country Strategic Plan and 2) to provide accountability for results to WFP stakeholders.

Subject and Focus of the Evaluation

The evaluation will cover all WFP activities (including cross-cutting results) for the period from January 2016 to June 2019 including activities and strategic direction prior to the introduction of the Country Strategic Plan 2017-2020. This is in order to better assess the extent to which changes have taken place with the introduction of the CSP.

The evaluation will assess WFP contributions to CSP strategic outcomes, establishing plausible causal relations between the outputs of WFP activities, the implementation process, the operational environment and changes observed at the outcome level, including any unintended consequences.

The evaluation will also focus on adherence to humanitarian principles, protection and gender issues and accountability to affected populations.

The evaluation will adopt the norms and standards of the United Nations Evaluation Group (UNEG) and the evaluation criteria of the Development Assistance Committee of the Organization for Economic Cooperation and Development (OECD/DAC), namely: relevance, efficiency, effectiveness, sustainability as well as connectedness, coherence and coverage as applicable.

Objectives and Users of the Evaluation

WFP evaluations serve the dual objectives of accountability and learning.

The evaluation will seek the views of, and be useful to, a broad range of WFP's internal and external stakeholders and presents an opportunity for national, regional and corporate learning. The primary user of the evaluation findings and recommendations will be the WFP Country Office and its stakeholders. It presents an opportunity for the Country Office to benefit from an independent assessment of its operations and to use the evaluation evidence to inform the design of the new Country

Strategic Plan. The evaluation report will be presented at the Executive Board session in November 2020.

Key Evaluation Questions

The evaluation will address the following four key questions:

Question 1: To what extent is WFP's strategic position, role and specific contribution based on country priorities and people's needs as well as WFP's strengths? The evaluation team will reflect on the extent to which: the CSP is relevant to national policies, plans, strategies and goals, including achievement of the national Sustainable Development Goals; the CSP addresses the needs of the most vulnerable people in the country to ensure that no one is left behind; WFP's strategic positioning has remained relevant throughout the implementation of the CSP in light of changing context, national capacities and needs; and the CSP is coherent and aligned with the wider UN and includes appropriate strategic partnerships based on the comparative advantage of WFP in the country.

Question 2: What is the extent and quality of WFP's specific contribution to CSP strategic outcomes in Indonesia? The evaluation team will reflect on the extent to which: WFP delivers expected outputs and contributes to the expected CSP strategic outcomes; WFP contributes to achievement of cross-cutting aims (humanitarian principles, protection, accountability to affected populations, gender equality and other equity considerations); the achievements of the CSP are likely to be sustainable; and the CSP facilitated more strategic linkages between humanitarian, development and, where appropriate, peace work.

Question 3: To what extent has WFP's used its resources efficiently in contributing to CSP outputs and strategic outcomes? The evaluation team will reflect on: whether outputs were delivered within the intended timeframe; the appropriateness of coverage and targeting of interventions; cost-efficient delivery of

assistance; and whether alternative, more cost-effective measures were considered.

Question 4: What are the factors that explain WFP performance and the extent to which it has made the strategic shift expected by the CSP? The evaluation team will reflect on the extent to which: WFP analyzes or use existing evidence on hunger challenges, food security and nutrition issues in the country to develop the CSP; WFP has been able to mobilize adequate, predictable and flexible resources; the CSP leads to partnerships and collaborations with other actors that positively influenced performance and results; the CSP provides greater flexibility in dynamic operational contexts and how did it affect results; other factors influencing WFP performance and the strategic shift expected by the CSP.

Scope and Methodology

The unit of analysis is the Country Strategic Plan understood as the set of strategic outcomes, outputs, activities and inputs that were included in the CSP document approved by the WFP Executive Board, as well as any subsequent approved budget revisions.

The evaluation will adopt a mixed methods approach; this implies a methodological design in which data collection and analysis is informed by a feedback loop combining a deductive approach, which starts from predefined analytical categories, with an inductive approach that leaves space for unforeseen issues or lines of inquiry that had not been identified at the inception stage.

In line with this approach, data may be collected through a mix of primary and secondary sources with different techniques including: desk review, semi-structured or open-ended interviews, closed answer questionnaires, focus groups and direct observation. Systematic data triangulation across different sources and methods should be carried out to validate findings and avoid bias in the evaluative judgement.

Roles and Responsibilities

Evaluation Team: The evaluation will be conducted by a team of independent consultants with relevant expertise for the Indonesia CSP.

Evaluation Manager: The evaluation will be managed by Ms. Mari Honjo, Evaluation Officer in the WFP Office of Evaluation. She will be the main interlocutor between the evaluation team, represented by the team leader, and WFP counterparts, to ensure a smooth

implementation process. Second level quality assurance will be provided by Ms. Gabrielle Duffy, Senior Evaluation Officer.

Stakeholders: WFP stakeholders at country, regional and HQ level are expected to engage throughout the evaluation process to ensure a high degree of utility and transparency. External stakeholders, such as beneficiaries, government, donors, implementing partners and other UN agencies will be consulted during the evaluation process.

Communications

An internal reference group composed of key WFP staff from the Indonesia Country Office, the Regional Bureau and Headquarters, plays an advisory role, and will review and provide feedback on evaluation products.

Preliminary findings will be shared with WFP stakeholders in the Country Office, the Regional Bureau and Headquarters during a debriefing session at the end of the fieldwork. A country learning workshop will be held to ensure a transparent evaluation process and promote ownership of the findings and preliminary recommendations by country stakeholders.

While all evaluation products will be produced in English, arrangements for local translators during fieldwork may be required.

Timing and Key Milestones

Inception Phase: June– late August 2019

Fieldwork Dates: late August – mid September 2019

Fieldwork Debrief: late September 2019

Reports: mid-September 2019 – March 2020

Learning Workshop: early December 2019

Executive Board: November 2020

Findings will be actively disseminated, and the final evaluation report will be publicly available on WFP's website.
