BENEFITS OF SCHOOL FEEDING

PARTNERSHIPS
Access to school feeding

16.4M children in 61 countries

3.4M children in emergencies

20 countries scaled up school meals in 2018 by additional 1.7 million children
Addressing gender challenges

51% of school children receiving school meals were girls

73% of countries met retention targets for girls

1 month/year reduction in child labour for girls in Mali
Benefits from school feeding

40 countries met essential nutritional requirements for growing children through school feeding

55 countries have social and behavior change communication

40 country strategic plans support a national home-grown school feeding model
Best practices to help us improve

- Lessons from experience
- Positioning in countries
- Integrated programming
- Focus on girls
- Partnerships for human capital
WHAT COMES NEXT...
WFP will support countries according to specific needs and context

**IN CRISIS OR HUMANITARIAN SETTINGS**
- Provide operational support
  - Ensuring consistent delivery of quality school feeding
- Transition to national programmes
  - Learning to let go successfully
- Increase in # of children reached by WFP
- Increase the quality of WFP programmes

**IN STABLE LOW AND LOWER MIDDLE INCOME COUNTRIES**
- Transition to national programmes
  - Learning to let go successfully
- Decrease in # of children reached by WFP
- Increase in # of children reached by national programmes
- Increase in WFP technical assistance support

**IN MIDDLE INCOME COUNTRIES**
- Consolidate national programmes
  - Taking a regional approach to country support
- Increase in # of children reached by national programmes
- Increase quality of national programmes
Four workstreams to support a strategic shift

- Generating and sharing knowledge and best practices globally
- Increasing the investment in school feeding: a new funding model
- Acting in partnership to improve and advocate for school health and nutrition
- Strengthening programmatic approaches in key areas
