World Food Programme: Management Key Performance Indicators

Management Key Performance Indicators (KPIs) reflect WFP's corporate performance and measure management performance that contributes to the implementation of the strategic plan.

WFP's KPIs are calculated based on component indicators which ensure a clear link with the daily management of operations. Component indicators for each KPI are included in the Corporate Results Framework. Targets are presented annually in the Management Plan and performance is analysed in the Annual Performance Report.

World Food
Programme

March 2020

 FOR PEOPLE
AND PLANET

KPI 1: Overall progress in country strategic plan implementation

Measures how funding and operational constraints influence WFP's implementation, and the performance of the activities and strategic outcomes that are implemented during the period being measured.

2018 end year
100% = CSP portal

Implemented

Achieved or on track

2019 mid year
100% = CSP portal

Implemented

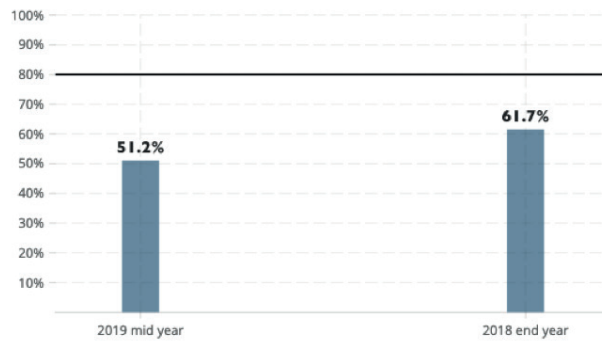

Achieved or on track

KPI 2: Effective emergency preparedness and response

Measures WFP's performance against emergency preparedness and response standards. This includes preparedness at the country and corporate levels, as well as implementation of corporate responses to acute emergencies.

Updated or implemented MPA (Minimum Preparedness Actions)

— KPI target

KPI 3: Overall achievement of management performance standards

Measures country office performance in each functional area in supporting the implementation of country strategic plans. Aggregation of functional areas permits a corporate analysis of management processes.
