How to become a CERFAM expert?

Mobilizing the most suitable and available expertise to support the implementation of good practices and the achievement of CERFAM's objectives is a key strategic pillar of our work. In order to provide and to make accessible the best expertise available to support governments and partners to improve programme and policy implementation, CERFAM is always looking for experts to co-operate and to support the response to technical assistance requests. CERFAM also encourages junior experts to register and make their expertise available for partners' analysis. The following areas are key to CERFAM:

1. **Home-grown school feeding**
2. **Postharvest loss management**
3. **Rural development**
4. **Food quality and safety**
5. **Community resilience**
6. **Multisectoral Platforms for Nutrition and Nutrition sensitive programming**
7. **Institutional Coordination and Collaboration**

Areas of expertise

- Analysis and Mapping
- Strategic planning
- Programme Design and Implementation

- Research and Evidence Building
- Technical Training
- Monitoring and Evaluation

- Partnership and advocacy
- Knowledge management
- Others (if applicable)

You could partner with CERFAM as either *lead expert* or *ad hoc expert*. Their respective role is described as below:

Lead Expert

Lead Expert is supposed to coordinate and interact with partners during the design and implementation of their programme and decision-making process, ensuring consistency

among all activities, assist them in organizing exchange and learning process (in terms of thematic and methodological input) and producing interim and final outputs.

Ad Hoc Expert

The role is to provide support on specific needs identified by Lead Partners regarding thematic expertise and support

If you would like to become an expert and contribute to CERFAM's goal of mobilizing experts to support technical assistance requests, please contact us at wfp.cerfam@wfp.org
