1,298 mt of food distributed

US$ 24,000 cash-based transfers made (home-grown school feeding)

US$ 0.5 million six months (August 2020 to January 2021) net funding requirements

83,297 people assisted (51 percent female)

In July 2020

Operational Updates

Due to the continued school closures and deepening socio-economic impacts of the COVID-19 pandemic, WFP, in collaboration with the Ministry of Education, Youth and Sport (MoEYS), distributed a second round of take-home rations, consisting of rice and vegetable oil, to 83,297 poor and vulnerable households (81,658 households of children registered in the school feeding programme and 1,639 school cooks) in five target provinces. In parallel, WFP continued to provide technical assistance to the Ministry to distribute rice to children in another 205 schools where home-grown school feeding programmes are implemented and financed by the government.

In addition, WFP, together with other UN agencies and development partners, supported the Ministry of Planning to expand its system of poverty identification (known as IDPoor) to register newly poor households for social assistance, including the new COVID-19 cash transfer programme. WFP participated in a joint field mission, led by the Ministry of Social Affairs, Veterans and Youth and the National Social Protection Council, to monitor the rollout of this programme.

Furthermore, in an effort to integrate food security and nutrition actions into the Government’s subnational development and investment planning process, WFP conducted field missions to 36 communes in six target provinces to engage with local officials and community members and better understand current development priorities as well as local responses to the COVID-19 pandemic. WFP also distributed 3,000 guidance booklets on food security and nutrition, in cooperation with the Council for Agricultural and Rural Development (CARD) and the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ).
## WFP Country Strategy

### Country Strategic Plan (2019-2023)

### Strategic Result: Everyone has access to food

#### Strategic Outcome 1: Vulnerable communities in Cambodia have access to nutritious, safe, diverse, convenient, affordable and preferred foods by 2025.

**Focus area:** Root Causes

**Activities:** Provide implementation support and technical assistance, including support to evidence-based policy and programme development, to national and subnational public and private sector actors engaged in social safety nets, particularly home-grown school feeding.

### Strategic Result: Food systems are sustainable

#### Strategic Outcome 2: Poor and vulnerable communities in Cambodia are more resilient to shocks and stresses in the food system by 2023.

**Focus area:** Resilience

**Activities:** Provide implementation support and technical assistance to national and subnational public and private sector actors engaged in food production and transformation. (CAR: Climate adaptation and risk management activities)

### Strategic Result: Developing countries have strengthened capacities to implement the SDGs

#### Strategic Outcome 3: National and subnational institutions have strengthened capacities to mitigate risks and lead coordinated shock preparedness and response efforts by 2025.

**Focus area:** Root Causes

**Activities:** Provide technical support and backstopping to national stakeholders engaged in shock preparedness and response mechanisms and risk informed coordination.

### Strategic Result: Countries have strengthened capacities to implement the SDGs

#### Strategic Outcome 4: National and local governance institutions and social protection systems are better informed and strengthened toward improved services delivery by 2030.

**Focus area:** Resilience

**Activities:** Develop and integrate digital information systems and provide technical assistance in their use to government officials and their counterparts.

**Activities:** Provide technical, coordination and organizational assistance to the Government and other food security, nutrition and social protection stakeholders engaged in shock preparedness and response mechanisms.

### Strategic Result: Sharing of knowledge, expertise and technology strengthen global partnership support to country efforts to achieve the SDGs

#### Strategic Outcome 5: Development and humanitarian partners in Cambodia have access to common supply chain services throughout the year.

**Focus area:** Resilience

**Activities:** Provide on-demand supply chain services to other United Nations agencies and humanitarian actors.

---

### Operational Updates (Continued)

The National Committee for Sub-National Democratic Development, with WFP’s support, conducted cascade trainings on integrating climate-change adaptation into local planning for commune councillors and local committees in selected communes.

WFP, in cooperation with the United Nations Children’s Fund (UNICEF), the Joint United Nations Programme on HIV/AIDS (UNAIDS), the United Nations Population Fund (UNFPA), UN Women, and the National Institute of Statistics, initiated a social impact assessment to measure the impact of the COVID-19 pandemic on household well-being. This will be repeated on a monthly basis to monitor trends overtime as the situation evolves.

At the national level, WFP and the National Committee for Disaster Management launched the national and provincial contingency plans and the new disaster management information system (known as PRISM) with 180 participants from the Government and development partners. Both initiatives support national and subnational capacities for disaster risk management, enabling effective preparedness and response actions.
