Peak into the future
Exploring probable/preferred future concept and country-specific probable future state to intentionally design better futures

**Description**
The purpose of this exercise is to ground teams' understanding in what are the most likely future outcomes of key KPIs based on research and extrapolation, as well as team member insights within their areas of expertise.

**Suggested time**: 20 hrs

**Level of difficulty**: Moderate

**Materials needed**: KPI source material, ppt, mural board/flip chart paper

**Steps**
1. Warm up and reflect on key challenges
2. Share insights and explore linkages

Warm up

Your task in this step
Reflect as a group around the following framing questions:

Answer the below questions

1. Why is your sector relevant within this system in question today?

2. How does your sector interact with the system? If it produces something, how much and of what quality?

3. What are the main challenges in improving your sector in context of the system at large?

4. What existing opportunities can be leveraged in your sector for the benefit of the system at large?

5. What advances need to be made in your sector to reach the preferred state for the system at large?
What’s the future of your expertise by 2030?

**Tool 4 / Peak into the future**
Exploring probable/preferred future concept and country-specific probable future state to intentionally design better futures

---

**Steps**

**Suggested time**
30 minutes

1. **Add your name**

2. **Share insights on probable and preferred futures in your different areas of expertise**

3. **Draw linkages between your probable/preferred futures and those of others**

4. **Highlight any and all emerging themes**
