About the Market Update

WFP Tajikistan, in partnership with the agricultural advisory organization Neksigol Mushovir has been monitoring commodity prices in markets across the country, especially to assess effects of COVID-19 on the population's food security situation. Markets monitored include 5 major markets and 10 minor markets. The focus is on the main commodities that are consumed by the population of the country. Prices are collected every Monday and Thursday. The price data is collected through the network of field enumerators. For each commodity, multiple traders are interviewed, and the average prices are recorded.
