1. RATIONALE

- 1. The seventh budget revision (BR) to Central African Republic (CAR) Interim Country Strategic Plan (ICSP) is required to respond to changes in the country context, necessitating an extension of the duration of the ICSP by two months.
- 2. It is aiming for an extension in time of two months of the current ICSP to end of February 2023 to align it with the key national policy and strategy documents and the United Nations Sustainable Framework 2023-2027. This will facilitate Central African Republic moving from ICSP to 2nd Generation CSP. The two months extension will bridge the gap between the current ICSP ending 31 December 2022 with the new CSP (2023-2027) entering into force 1 March 2023.
- 3. This extension will enable WFP to continue responding effectively and swiftly to the needs of targeted populations from 1 January 2023 to 28 February 2023.

2. CHANGES

- 4. There are no changes to the strategic orientation as per the approved BR6 of the ICSP and the line of sight remains unchanged (the same as BR6).
- 5. During the two months extension, saving lives, malnutriton prevention and protecting livelihoods will remain WFP's core priority, as part of a coherent UNCT support to the Government's priorities and goals.

Risk Management

6. Based on corporate standard operating procedures and risk management frameworks, WFP has developed its contextualized risk register to mitigate potential health, safety and security risks including COVID-19. Strong compliance with internal controls will continue to be ensured.

Beneficiary analysis

7. The proposed BR7 does not affect the number of planned beneficiaries. However, food and CBT requirements will increase due to the two-month extension.
