

WFP Mozambique Annual Country Report Jan – Jun 2022 Highlights

 **1.8 MILLION PEOPLE**
ASSISTED

Internally displaced people are the largest group, with women and girls accounting for the majority of those assisted.

WFP Mozambique
2022 ANNUAL COUNTRY REPORT

WFP Mozambique
2017-2022 COUNTRY STRATEGIC PLAN

“When I came back home, they were already attacking us; my house was destroyed. I lost eight people from my family. I was trying to rebuild my life in Nampula, then Cyclone Gombé hit, and the house collapsed.”
says Salome. [READ SALOME'S STORY](#)

Mozambique is one of the countries most vulnerable to climate change. In 2022, the cyclone season was particularly active – three tropical storms and one cyclone hit the north and centre of Mozambique, affecting 900,000 people.

920,000
RECEIVED EMERGENCY
FOOD ASSISTANCE

WFP provided (in-kind) food assistance. Another 426,000 people received cash-based transfers. | [READ MORE](#)

400,000
CHILDREN RECEIVED
SCHOOL MEALS

Students benefited from the Government's National School Feeding programme and WFP's home-grown school meals, and school feeding in emergencies. [READ MORE](#)

187,000
ASSISTED UNDER WFP'S
COVID-19 RESPONSE

WFP and UNICEF supported the Government's Direct Social Support Programme—Post Emergency Response by providing cash to urban and peri-urban households. | [READ MORE](#)

44,000
CHILDREN RECEIVED
NUTRITION SUPPORT

WFP prioritized targeted supplementary feeding for children aged 6–23 months as part of the northern crisis response. | [READ MORE](#)

65,000
SMALLHOLDER FARMERS

Practicing climate-smart agriculture benefited from training in conservation agriculture. Another 2,800 people received pay-outs via micro-insurance schemes. | [READ MORE](#)

100,000
PREGNANT AND LACTATING
WOMEN AND CHILDREN ASSISTED

WFP treated 11,544 pregnant and lactating women and 19,181 children aged 6-59 months for moderate acute malnutrition and provided preventative nutrition support to 67,021 children and pregnant and lactating women. | [READ MORE](#)

Strategic Outcomes [READ MORE](#)

Strategic Outcome 1

Families in food insecure areas are able to maintain access to adequate and nutritious food throughout the year, including in times of shock

187,000 COVID-19 affected people received USD 23.7 monthly for six months

86 government employees received capacity strengthening in food security, impact analysis, and the prevention of sexual exploitation and abuse

12,000 people (50 percent women) participated in financial inclusion initiatives

Strategic Outcome 2

Shock affected people are able to meet their basic food and nutrition needs during and immediately after a crisis

63,880 people received emergency assistance through food and cash-based transfers

67,000 children received preventive care for acute malnutrition, and 20,000 were treated for moderate acute malnutrition

1,200 refugees were assisted with crop and vegetable cultivation, chicken production, carpentry, and other livelihood activities

Strategic Outcome 3

Children in chronically food insecure areas have access to nutritious food throughout the year

470 schools participated in school-based programme

WFP provided school meals on 73 percent of school days

370,000 students received nutritious meals

1,145 school administrators and government representatives were capacitated in programme quality and strategy

Strategic Outcome 4

Targeted people in prioritized areas have improved nutritional status in line with national targets

22,000 people were reached through social and behaviour change communication addressing the significance of nutritionally diverse meals

14 mobile health clinics were established to provide immunization, vitamin A supplementation, deworming, and family planning

5,768 farmers (84 percent women) received trainings on conservation agriculture and business skills

Strategic Outcome 5

Targeted smallholder farmers in northern and central Mozambique have enhanced livelihoods

WFP assisted nine fishing groups (180 people) and provided them with fishing kits

8,282 farmers (54 percent women) and 117 government workers received training on post-harvest loss management

WFP provided 6,244 hermetic bags to 3,122 smallholder farmers

Strategic Outcome 6

Humanitarian and development partners are reliably supported by efficient and effective supply chain and ICT services and expertise

WFP stored and handled 1,336 m³ of relief items for other humanitarian actors

WFP assisted neighbouring nations in the transport of over 10,000 mt of humanitarian assistance items

Strategic Outcome 7

Government and humanitarian partners have access to effective and reliable services during times of crisis

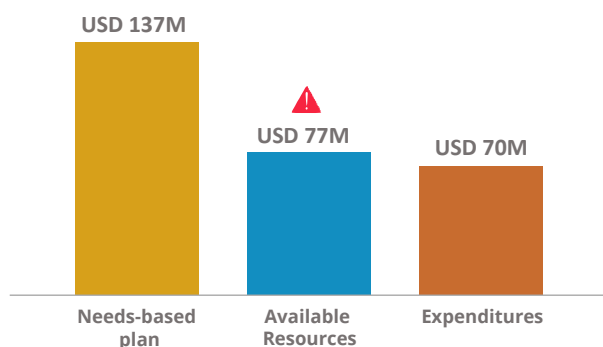

WFP's United Nations Humanitarian Air Services transported 4,031 passengers and 29 mt of humanitarian cargo

4,000 conflict-affected households received cash transfers to purchase hygiene items

FINANCIAL SNAPSHOT

Bilateral, multilateral, and private sector contributions helped fund **56.2 percent** of WFP's needs-based plan. | [Read more](#)
