

WFP Mozambique Annual Country Report Jul - Dec 2022 Highlights

Internally displaced people are the largest group, with women and girls accounting for the majority of those assisted.

WFP Mozambique
2022 ANNUAL COUNTRY REPORT

WFP Mozambique
2022-2026 COUNTRY STRATEGIC PLAN

WFP provided in-kind food assistance and cash-based transfers to **1.2 million people** in response to the ongoing armed conflict in the north and the extreme weather events. | [READ MORE](#)

WFP treated **33,097 pregnant and lactating women and children** for moderate acute malnutrition and provided **preventative nutrition support to 81,147 children and pregnant and lactating women**. | [READ MORE](#)

WFP assisted internally displaced people and host communities through the provision of customized early recovery kits in the provinces of Nampula and Cabo Delgado. | [READ MORE](#)

WFP assisted **279,131 children** in more than **470 schools** nationwide. Take-home meals benefited children in an additional 45 schools in Cabo Delgado. | [READ MORE](#)

WFP prioritized targeted supplementary feeding programmes for children aged 6-23 months as part of the northern crisis response. | [READ MORE](#)

28 COOPERATING PARTNERS

were involved in implementing WFP activities: 16 local NGOs and 12 international NGOs. | [READ MORE](#)

The best way to save lives, livelihoods, and money in an emergency, **“is to act before disaster strikes. If we wait until after a shock, the impact will be higher, the need for funds will be higher, and communities would be much more vulnerable,”** says Benvindo Nhanchua, a climate expert for WFP in Mozambique. | [READ MORE](#)

WFP and government partners have since been strengthening their capacities to prepare for and respond to disasters, including floods, cyclones, and drought.

Strategic Outcomes [READ MORE](#)

Strategic Outcome 1

Crisis-affected populations in targeted areas can meet their essential food and nutrition needs immediately prior to, during and in the aftermath of shocks

22,600 people received non-food items in the form of agricultural kits with hoes and axes and 73 tonnes of seeds

23,000 people participated in health, hygiene, and nutrition sensitization

72,000 children participated in malnutrition prevention programmes

Strategic Outcome 2

By 2030 all forms of malnutrition are reduced, primarily among children, women and girls, through enhanced gender equity and improved access to and availability and uptake of healthy diets and health services

5,247 people participated in HIV testing and counselling, antiretroviral therapy, and sexually transmitted infection screening

WFP sensitized 4,086 participants through 2,120 gender dialogue sessions on topics such as prevailing perceptions of roles and expectations of men and women

Strategic Outcome 3

Vulnerable and shock-affected communities, households, women, and young people in targeted areas have more equitable, resilient, sustainable, and climate-smart livelihoods

10,500 households participated in projects focused on post-harvest management, access to climate information, and the use of agricultural techniques

20,000 internally displaced people (52 percent women) received packages tailored to their livelihoods

WFP trained 779 government officials on post-harvest management skills

Strategic Outcome 4

By 2030, national and subnational actors have strengthened capacity and systems to protect and improve the human capital of at-risk and shock-affected populations

130,000 COVID-19 affected people received social protection cash-based transfers monthly

WFP provided meals to 250,000 students, including take-home rations to 23,000 internally displaced children

WFP and the National Association of Rural extension established 44 school gardens

Strategic Outcome 5

Humanitarian and development actors benefit from a range of available services to help them implement their programmes and support their beneficiaries throughout the year

WFP transported more than 530 m3 and stored and handled 9,326 m3 of relief items for humanitarian and development actors

WFP managed the interagency community feedback mechanism, Linha Verde 1458, which attended to more than 100,000 calls

Strategic Outcome 6

National and sub-national institutions and partners are able to implement their programmes and provide the required support to affected populations during times of crisis

WFP's United Nations Humanitarian Air Services transported 7,151 passengers and completed 3 medical evacuations

The food security cluster, co-led by WFP and the Food and Agriculture Organization, coordinated 14 online meetings at the national and provincial levels

Second-generation country strategic plan (2022-2026)

The second generation country strategic plan came into effect in July 2022 and continues through December 2026. The new plan introduces adaptation to the climate crisis and aims to help the nation stop and reverse the deteriorating food security and nutrition situation through the implementation of resilience-building approaches across the triple nexus of humanitarian, development, and peace.

Immediate **assistance** during crisis

Strengthening the **resilience** of communities affected by shocks

Supporting **national systems** with risk-informed integrated programming
