

# WFP South Sudan

World Food Programme

SAVING LIVES  
CHANGING LIVES

2022

## Annual Country Report

WFP/Gabriela Vinacura

## OVERVIEW

[Full Report](#)

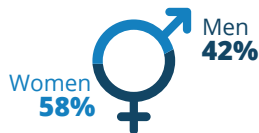

South Sudan faced unprecedented humanitarian needs throughout 2022 because of protracted violence, flooding, and the effects of the global food crisis. In response to rising needs, the United Nations World Food Programme (WFP) provided **5.6 million people** with **190,000 metric tons** of food and **USD 39.6 million** in cash transfers. This included providing general food assistance to **3.5 million people** including refugees, specialized nutritious foods to **1.7 million children** aged 6 to 59 months, pregnant and lactating women and girls, and school meals to **576,336 school-aged children**. WFP scaled up resilience activities and investment in infrastructure, contributing to communities' resilience through improved road accessibility, access to markets, recovery of land in flooded areas, and increased agricultural productivity.

Total number of people reached

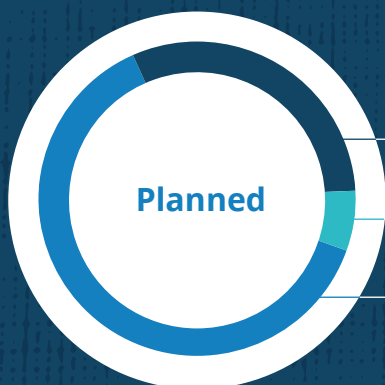

**5,640,341**

Number of persons with disabilities reached:

**129,472**

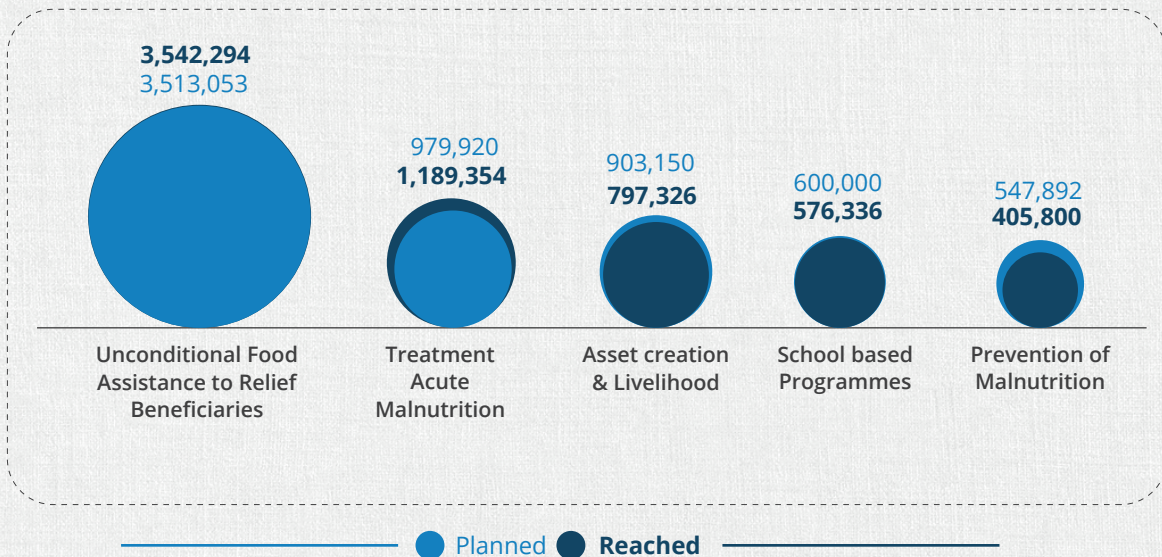

### Beneficiaries by RESIDENCE

1,764,018	🏠 IDPs	658,177
341,552	🏠 Refugees	271,599
3,536,050	🏠 Residents	4,710,565

## Beneficiaries by **ACTIVITY**

## Beneficiaries by **MODALITY**

## **PARTNERSHIPS** and **FUNDING**

No. of cooperating partners  
**76**

No. of local partners  
**34**

Funding **NEEDS** vs Funding **RECEIVED**

**USD 1.149 B**

**USD 871.634 M**

## **SUPPLY CHAIN**

Food delivered to different locations in the country:  
**259,925 MT**

Kilometers of roads and dykes rehabilitated improved or constructed:  
**871 km**

MT of food procured locally:  
**9,916 mt**

MT of food procured from smallholder farmers:  
**517 mt**

## Providing logistics support to the humanitarian community

WFP supported humanitarian response across different sectors by providing reliable common services. The United Nations Humanitarian Air Service (UNHAS) and the Logistics Cluster provided efficient humanitarian response to affected populations. UNHAS remained a vital enabler to the wider humanitarian community and their life-saving operations, facilitating access to various locations to support life-saving programmes by offering passenger and light cargo transport for the humanitarian community. Overall, UNHAS transported 72,229 passengers and 2,233 mt on behalf of 234 organizations.

To enable the humanitarian response to the high number of emergencies across the country such as flooding and subnational violence, the Logistics Cluster supported 182 humanitarian organizations with logistics coordination, information management, capacity strengthening, and facilitation of common services. The Cluster also transported 6,392 mt of nonfood items. Through the Cluster, WFP delivered humanitarian supplies to 195 locations in 2022, exceeding the target of 130 locations.

## Sustainable partnerships for development

WFP maintained partnerships with development and humanitarian partners, Government, UN Agencies, local and international organizations, and international financial institutions to contribute to the humanitarian-development-peace nexus. These partnerships helped WFP achieve the Interim Country Strategic Plan (ICSP) goals before the roll out of a new CSP from January 2023.

WFP and FAO continued to coordinate implementation of the UK Aid funded multi-year food security and livelihood project, 'Building Resilience through Asset Creation and Enhancement (BRACE II)', in all counties of Northern Bahr el Ghazal and Twic County of Warrap State since 2016. Complementary gains accrued from the joint partnership, where WFP provided cash-based transfers while FAO provided agricultural inputs. The project helped to strengthen resilience of communities to reduce over-reliance on food assistance.

## WFP Supported Sustainable Development Goals

2 ZERO HUNGER

Number of people reached through WFP support to reduce food insecurity, prevalence of malnutrition, and improve agricultural productivity:

**5,640,341**

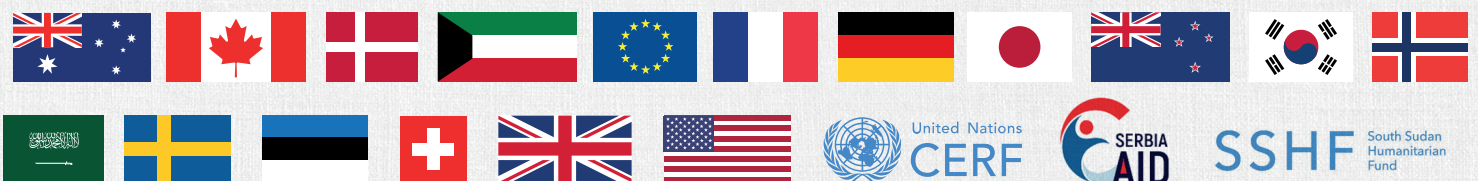

17 PARTNERSHIPS FOR THE GOALS

Number of partners participating in multi-stakeholder partnerships:

**234**
