

# WFP KYRGYZ REPUBLIC

## 2022 ANNUAL COUNTRY REPORT OVERVIEW

World Food Programme

SAVING LIVES  
CHANGING LIVES

In 2022, the global food crisis, and subsequent rising food prices, declining remittances and incomes continued to undermine the resilience of low-income households and their access to a nutritious diet. In response, WFP rolled out its Country Strategic Plan (CSP) 2018–2022 and provided support to the Government to meet the food needs of **282,868** people most vulnerable to food and nutrition insecurity.

WFP focused on i) strengthening national capacities to optimize the school meals programme, ii) informing shock-responsive and nutrition-sensitive social protection systems, and iii) enhancing gender-transformative disaster risk management and climate change adaptation systems. WFP supported the Government's life-saving assistance to conflict-affected people in the border areas of Batken and Osh.

WFP developed a new CSP for 2023-2027 in line with national priorities and extended the Memorandum of Understanding with the Government to implement the new CSP.

### 2022 IN NUMBERS

# 282,868

**FOOD-INSECURE PEOPLE  
REACHED WITH:**

**4,737 MT**  
of fortified **FOOD**

**USD 875,307**  
cash-based transfers

Capacity strengthening  
for **27,425 PEOPLE**

You have the opportunity to call our **6363** hotline system (free of charge) to share your feedback on our work, ask any questions or raise concerns, including on security, gender-based violence, sexual harassment, and fraud incidents in a confidential manner.
