poverty rate
29.7%

COUNTRY STRATEGIC PLAN (CSP) focused on five strategic outcomes

1

Food insecure and most vulnerable have access to food (29% funded)

2

Food insecure refugees, displaced populations and host communities have access to food (39%)

3

Targeted populations in Egypt have improved nutritional status by 2030 (14%)

4

Vulnerable smallholder farmer and Bedouin communities have resilient livelihoods (11%)

5

The Government of Egypt has enhanced capacity (3%)

CSP budget **586.4** USD million | **42%** funded (2022)

November 2021

EVALUATION

November 2022

KEY FINDINGS & CONCLUSIONS

RELEVANCE & STRATEGIC POSITIONING

CSP aligned to national priorities along with strong UN coherence

WFP demonstrated the ability to respond to emergencies and to adapt to changing needs

Partnerships were strong with the government but less strategic with the UN

WFP is on track to achieving planned CSP results, albeit with some exceptions

WFP activities contributed to reduced food insecurity, improved nutritional knowledge and increased resilience

RESULTS & PERFORMANCE

Fragmented design and delivery risks impeding results

NEXUS

No deliberate focus, but potential to contribute to humanitarian-development aspects of triple nexus linkage

RESOURCE MOBILIZATION & EFFICIENCY

Narrow donor base and a challenging funding scenario

Digitization helped improve cost-efficiency of activities but overall mixed results due to internal and external factors

Cost efficiency and targeting were mediated by national requirements

GENDER & INCLUSION

Women were a focus of support, though insufficient internal WFP resources inhibited gender mainstreaming

Beneficiary concerns were mostly addressed though processes for securing benefits were cumbersome for a few

RECOMMENDATIONS

1

Review WFP interventions to streamline and consolidate their number

2

Support government to refine its beneficiary identification mechanisms

3

Review partnerships for their strategic potential and expand engagement

4

Ensure adequate capacity to effectively monitor and follow-up interventions

5

Ensure capacity and ability to mainstream gender into interventions
