

WFP TAJIKISTAN

2023 Annual Country Report Overview

WFP focused on supporting livelihoods, improving agricultural production, enhancing health, education, and nutrition outcomes, as well as strengthening national institutions and systems. WFP is undertaking a strategic shift from direct implementation to enabling and strengthening the capacities of national and sub-national institutions to deliver on their food security and nutrition priorities.

2023 HIGHLIGHTS

Resilience Building

The multi-year funding from the Green Climate Fund has been the backbone in carrying out WFP's climate change adaptation interventions. Food assistance-for-asset activities were significantly increased with the addition of new funding.

504 household and
44 community assets
were created

15,775 people were
provided with cash
assistance

2 strategically positioned
bridges were constructed

WFP aims to strengthen livelihoods, resilience and the adaptive capacities of food-insecure and vulnerable populations by improving climate-resilient and nutrition-sensitive agri-food value chains.

2,990

farmers were trained on climate change adaptation activities at the community level

The assets generated economic benefits of more than US\$40,000.

IN 2024, WE AIM TO

provide capacity-strengthening training for male and female farmers to increase their knowledge and competence to diversify their livelihoods and increase their income sources. WFP supports strengthening national capacities for improving the climate-information system, weather forecasts and early-warning and agro-advisories to smallholder farmers.

2023 HIGHLIGHTS

School Feeding Programme

WFP's school feeding programme remains the largest operational component in Tajikistan, being implemented in 53 districts and towns of the country

WFP further reinforced efforts toward national ownership and institutionalization of the programme through constant technical support in developing the legislative and regulatory framework with functional mechanisms.

552,800

Primary grade schoolchildren benefited from the **school feeding programme**

1,860 schools provided with hot meals

A **national school feeding unit** was established under the Ministry of Education and Science of Tajikistan

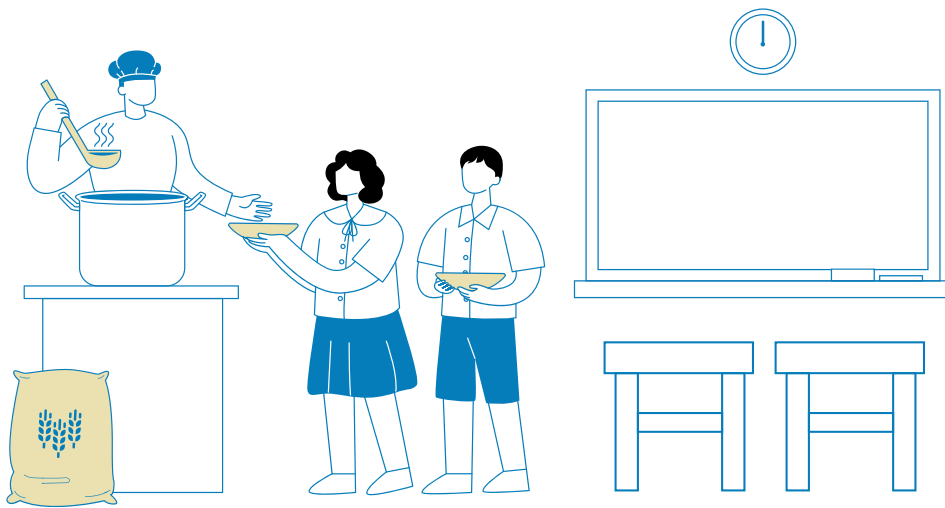

6,500

mt of food commodities were provided to schools

IN 2024, WE AIM TO

continue working closely with the Government of Tajikistan on the nationalisation of the school feeding programme by allocating additional funds from national budget

2023 HIGHLIGHTS

Nutrition

WFP implemented activities for the treatment and prevention of moderate acute malnutrition (MAM) in five districts of Khatlon and Sughd regions.

5,202

children aged 6-59 months received malnutrition treatment

25mt

of specialized nutritious foods provided for the treatment of malnutrition

500

primary healthcare personnel were trained on malnutrition treatment

For nutrition-specific activities, challenges were encountered in securing long-term funding that would allow for sustainable programme expansion.

IN 2024, WE AIM TO

expand the MAM treatment programme concurrently with SBCC interventions to new areas. Furthermore, nutrition integration will be a key area of emphasis in the upcoming year aimed at achieving a more comprehensive approach and fostering enhanced collaboration with other programme activities.

2023 HIGHLIGHTS

Emergency Preparedness and Response

WFP continued to support the Committee of Emergency Situations and Civil Defense and enhanced the response capacity of the Rapid Emergency Assessment and Coordination Team (REACT).

205,464 people were covered under general food assistance in 42 districts and towns

13,409 people affected by floods received food assistance

Community feedback mechanisms were implemented in all food distribution points with plans to take them to scale in 2024.

8,301mt

of food commodities were distributed to vulnerable people

IN 2024, WE AIM TO

strengthen the capacity of the Committee of Emergency Situations and Civil Defense in early warning, emergency preparedness and humanitarian supply chains for emergency response and will collaborate with local academic actors on the establishment of disaster risk reduction and early warning systems.
