

## Highlights

- 1 Compared to last week, prices for basic food products, including vegetable oil and first-grade flour, decreased by 1-4% due to an increase in their stocks in local markets. However, prices for rice and cottonseed oil increased by 3-3.5%.
- 2 Average prices for mutton, beef, chicken and beans remain volatile depending on the increase or decrease in their stocks.
- 3 In most food markets in cities and regions, the average price for potatoes, onions and carrots increased by 2-6% compared to last week.
- 4 Taking into account the fire at the market in the Jayhun district, it is partially functioning until the consequences are eliminated. Sellers sell their products in areas near the market.
- 5 The average price for diesel, petrol and LPG remained unchanged compared to the last week.

### About the Market Update

WFP Tajikistan, in partnership with the agricultural advisory organization Neksigol Mushovir has been monitoring commodity prices in markets across the country. Markets monitored include 5 major markets and 10 minor markets. The focus is on the main commodities that are consumed by the population of the country. Prices are collected at the start of each week. The price data is collected through the network of field enumerators. For each commodity, multiple traders are interviewed, and the average prices are recorded.
