1. The World Food Programme (WFP) is planning to implement **Sudan Emergency Wheat Production Project Phase II** (the **Project**). The Bank has agreed to provide financing, implementation support and monitoring for the Project in accordance with the terms of the FA.
2. WFP will implement measures and actions of this Environmental and Social Management Plan<sup>1</sup> (**ESMP**) in accordance with the FA and the normative framework of WFP including the WFP Environmental and Social Sustainability Framework so that the Project meets all the relevant requirements of the Bank Environmental and Social Operational Safeguards (**OS**) and relevant national policy and legal requirements.<sup>2</sup>
3. Where the ESMP refers to specific plans, whether they have already been prepared or are to be developed, the ESMP requires compliance with all mandatory provisions of such plans.
4. The table below summarizes the material measures and actions that are required, the basis of the requirement, the timing of the measure or action, and the criteria to be used for determining whether the required measure or action has been successfully achieved, WFP is responsible to implement the Project activities in accordance with the terms of the FA and the relevant requirements of the ESMP.
5. Implementation of the material measures and actions set out in this ESMP will be monitored and reported to the Bank by WFP as required by the ESMP and the conditions of the FA, and the Bank will monitor and assess progress and completion of the measures and actions throughout implementation of the Project in accordance with the FA.
6. As agreed by the Bank and WFP, this ESMP may be revised from time to time during Project implementation, to reflect adaptive risk management of project changes and unforeseen circumstances or in response to assessment of project performance conducted under the ESMP itself. In such circumstances, WFP will propose and agree changes with the Bank and then update the ESMP to reflect on such changes.
