

Evaluation of Niger WFP Country Strategic Plan (2020-2024)

COUNTRY CONTEXT

population

million people in severe food insecurity **Global Hunger** Index Rank (2022)

127 countries

Gender Inequality Index (2023)

out of 173 countries

Displaced Persons

asylum seekers

COUNTRY STRATEGIC PLAN (CSP) focused on six strategic outcomes

Crisis affected populations are able to meet their basic food and nutrition needs during and after a crisis

(39%)

School-aged children have access to adequate and nutritious food during the school year (8%)

Nutritionally vulnerable population has improved nutritional status (8%)

Food insecure population has more resilient livelihoods to ensure access to adequate and nutritious food

National institutions and other partners have strengthened food security, nutrition, social protection policies and

Humanitarian and development partners have access to common services and expertise to operate until alternatives

CSP budget 1.8 USD million | 57% funded | 12.8 million beneficiaries targeted

(28%)

EVALUATION

programmes (2%)

are available (5%)

KEY FINDINGS & CONCLUSIONS

STRATEGIC ALIGNMENT AND PARTNERSHIP

CSP is broadly aligned with national priorities, UN frameworks, and the SDGs

WFP's readiness to respond was recognized as added value

Challenges remain in collaborating with cooperating partners and expanding engagement with the private sector and academia

CONTEXTUAL RELEVANCE AND ADAPTIVE CAPACITY

WFP is recognized for ability to deliver context-specific assistance, adapting to multiple shocks

The CSP showed strong contextual relevance, with WFP aligning activities to vulnerable populations' evolving needs

WFP's adaptative capacity were supported by robust information systems and a flexible framework allowing for strategic and operational adjustments

INTERNAL COHERENCE

response and an integrated resilience package, reflecting strategic intent

resilience support showed weak articulation of internal linkages

WFP's resilience package

CONTRIBUTION TO STRATEGIC OUTCOMES

CROSS-CUTTING THEMES

WFP played a critical role in providing

shock-affected populations in Niger,

particularly during the lean season and

following displacement or flooding events

food and nutrition assistance to

sustainability across its interventions

access and livelihoods through school feeding, nutrition, and asset rehabilitation

and community ownership, and overall sustainability of results

NFP strove to adhere to the humanitarian principles and continued to be perceived as a neutral actor

EVIDENCE GENERATION

WFP invested in evidence generation and impact

FINANCIAL RESOURCES AND EFFICIENCY MEASURES

Funding shortfalls impacted humanitarian WFP's response was not always timely or

response, limited flexibility and predictability

WFP expanded its national staffing and operational presence in Niger, but continues to face challenges in human resource capacity, gender parity, and staff retention

at the required scale and lacked planning
