Community-Based Organizations, Beneficiary Institutions, Local & International NGOs, Civil Society, UN

Financial Institutions / Multilateral Partners Bilateral Partners

Regional Bureau Dakar, HQ, WFP Brazil Center of Excellence, Regional Center of Excellence in Ivory Coast
CONCLUSION: BUILDING LONG TERM....

- Move from school feeding response focus to resilience building and long-term development;

- Stronger partnership and sustained impact through immediate future and long-term investment;

- The enactment of a law on the school feeding programme would ensure that the achievements of the programme are preserved and sustained in the long term.
THANK YOU FOR YOUR SUPPORT
