Contributions of the WFP - Brazil partnership to the global sustainable development

WFP Executive Board
Rome, November 2018

WFP AND PARTNERS

Estimate that there are **73 million children that need school feeding and are not getting it**

BRAZIL'S SUSTAINABLE SCHOOL FEEDING

Promotes food security and nutrition of 43 million children and of the most vulnerable while **strengthening social development**

BRAZIL-WFP PARTNERSHIP

Contributes to bridge the global hunger and nutrition gap, by supporting **Sustainable National School Feeding** through **South-South and triangular cooperation**

GOVERNMENTS

OFFICES

**SOUTH-SOUTH
COOPERATION**

Countries and regional bodies learn from the Brazilian Zero Hunger Strategy and National Home-Grown School Feeding experience through the WFP Centre of Excellence.

WFP Centre of Excellence in Brazil continuously catalyzes WFP's support to **30 countries by facilitating South-South and triangular cooperation.**

This means that **WFP-Brazil partnership contributes to the 43 million children** who benefit from WFP capacity strengthening and partnerships that promote national school feeding programmes.

CoE IN THE FIELD

76

countries engaged in capacity development activities with the WFP Centre of Excellence

54

African countries committed to invest in school feeding through the WFP-African Union partnership

51

study visits of African, Asian and Latin American countries to Brazil

20

countries developing national school food policies

19

countries taking national management ownership of school feeding programmes for national

CoE IN THE FIELD

MOZAMBIQUE

Through South-South cooperation, Brazil and WFP are enhancing the capacity of national institutions to deliver **HGSF at central and decentralized levels supported by legal and policy tools**

LAO

Increasing **nutrition education**, and stimulating a nationally-owned School Feeding programme

BENIN

Committed US\$48 million to reach 1574 schools nationwide over a 4-year period

KENYA

Approved a Strategy for providing **school meals to 950,000 children**, aiming universal coverage by 2019

AFRICAN UNION AND RBAs

Joining forces and tapping into countries' experiences is **fundamental to deliver and monitor results in time.**

Global consensus that **integration of school feeding with broader development agendas has the potential to transform lives** with sustainable positive impact

Social safety nets: 10% of household income indirectly transferred through meals.

Local economies & agriculture: Home-grown school feeding programmes support smallholder farmers.

Health & Nutrition:

Nutrition-sensitive policies and actions at schools can reduce the prevalence of anaemia by up to 20% in girls.

**SUSTAINABLE
SOCIAL DEVELOPMENT**
