Two key strategic shifts, grounded in strong evidence

1. Mainstreaming gender and nutrition
2. Diversifying interventions through innovations
General Food Assistance
- Slight increase in rations (133 672)
- Food basket diversity
- Community-based targeting
School Feeding
- Nutrition-sensitive approach
- Introduce nutrition education
Complementary activities
- Scale-up of existing activities
- Sustainable fish farming
- Common resilience approach
Nutrition
- Reposition WFP
- Improve intersectoral coordination
- Nutrition education
- Initiate a voucher pilot
