

WFP SAYS NO to GENDER BASED VIOLENCE

WFP South Sudan Situation Report #155

13 December 2016

In Numbers

- 1.8 million** internally displaced people ([OCHA](#))
- 1,276,513** South Sudanese refugees ([UNHCR](#))
- 212,071** seeking shelter with the UN ([UNMISS](#))
- 3.6 million** people in need of food assistance from October—December ([WFP estimate](#))

Highlights

- WFP launched a Special Operation for road rehabilitation for the Northern Corridor from Sudan to South Sudan.
- WFP and partners delivered training on post-harvest management and grain storage techniques to support smallholder farmers.
- WFP and World Vision kicked off registration of vulnerable households for Juba urban poor response.

People assisted October 2016

GENDER MARKER **2A** EMOP 200859

Global Humanitarian Funding

Overall: **USD 1.3 billion**
WFP share: **USD 550.7 million**

WFP 6-month Net Funding Requirements (Nov 2016—Apr 2017)

Emergency Operation (EMOP 200859) **USD 220 million**

Protracted Relief & Recovery Operation **USD 28 million**

Logistics Cluster **USD 8 million**

UNHAS **USD 13 million**

Highlights

- WFP's Special Operation for the rehabilitation of the Rabak-Joda road (Sudan) has been approved, valued at US\$2.5 million. The 130km road repair project will enable WFP to facilitate an un-interrupted provision of emergency assistance through WFP South Sudan's Northern Corridor from Kosti, White Nile State in Sudan to Renk, Upper Nile State in South Sudan. Continued use of the Northern Corridor—through which WFP has moved nearly 29,000mt this year—is contingent upon the successful rehabilitation of the road, as stipulated in the Memorandum of Understanding signed between the governments of Sudan and South Sudan.

WFP Response

- In areas of the country that are more stable, WFP continues to support smallholder farmers through its [Purchase for Progress \(P4P\)](#) model. From 6-8 December, in coordination with UNIDO and South Sudan's Ministry of Agriculture, WFP provided training to 30 government and NGO extension workers on post-harvest management and storage techniques of food grain crops in the Greater Bahr el Ghazal region. The extension workers will then be able to pass this knowledge on to local smallholder farmers to help improve the management and storage of their harvested crops.

Food and Nutrition Assistance

- On 8 December, WFP and World Vision commenced [SCOPE](#) registration of beneficiaries targeted in the Juba urban poor pilot response. Through the pilot, supported by USAID, WFP is providing cash assistance to 42,000 vulnerable people (7,000 households) who will also receive skills training in nutrition, health, urban agriculture and entrepreneurship.

- There are currently seven ongoing Integrated Rapid Response Mechanism (IRRM) missions in Oriny, Aburoc, (Upper Nile), Ganyiel, Nyal (Unity), Urur, Akobo, and Canal (Jonglei), through which more than 211,000 people will receive life saving food and nutrition assistance. 16 missions are planned for the coming weeks in the Greater Upper Nile region to provide assistance to 250,000 people.

Supply Chain

- On 8 December, one WFP barge set departed Bor loaded with 3,800mt of food commodities and Logistics Cluster non-food items (NFI). The barge is expected to arrive in Malakal on 22 December.

Clusters and Common Services

UN Humanitarian Air Service

- Last week UNHAS transported 2,085 passengers and 20mt of light humanitarian cargo. UNHAS also managed 60 airdrop flights delivering 1,777mt of food for WFP.
- UNHAS facilitated two medical evacuations from Waat and Aweil and one security relocation from Walgak in the UNHAS regular flight schedule.
- UNHAS performed charter flights for four organizations from Torit to Lohutok, Ajuong Thok, Maban, Lafon and Mingkaman.
- Three IRRM deployments were facilitated to New Fangak, Duk Padiet and Aweil.
- UNHAS transported 1.5mt of cargo for ECHO partners involved in Emergency Preparedness and Response activities to Old Fangak, Kurwai, Wichdeng and Pagil.
- UNHAS continues to support the child reunification effort of UNICEF. During the reporting period, five children were reunited with their families in Ulang and Walgak.

Logistics Cluster

- The Logistics Cluster coordinated the delivery of 70mt of humanitarian relief items to Akobo, Ganyiel, Mankien, Mayendit, New Fangak, Nyal, Pibor, Rubkona, and Rumbek on behalf of 11 organizations.
- Last week, the Logistics Cluster supported a rapid response mission to New Fangak by facilitating the airlift of 7mt of emergency cargo.
- The Logistics Cluster is coordinating a convoy from Juba to Mundri on behalf of the humanitarian community in South Sudan. The two day convoy will deliver Health, Shelter, Operational Support and WASH relief items.
- The most recent Access Constraints Map is available at the following link: <http://www.logcluster.org/map/south-sudan-access-constraints-map-02-december-2016>.

Food Security & Livelihoods Cluster

- The FSLC is supporting the 19th round of data collection for the Food Security and Nutrition Monitoring System (FSNMS) through identification and coordination of partners—particularly in hard to reach areas. Insecurity continues to present a challenge for data collection which technical teams are trying to address. Given the increase in food insecurity in the country and the associated costs to be included in the 2017 Humanitarian Response Plan, it is essential that food security analyses are as representative as possible throughout South Sudan.

Emergency Telecommunications Cluster

- Deployment of the Digital Mobile Radio (DMR) backbone infrastructure commenced last week in Juba. To date, the team have setup the DMR network controller and installed repeaters in two towers. The installation process in Juba is expected to be completed and go "live" next week for testing.
- Security telecommunications in the analogue radio system remain operational 24/7 in all locations in the country.

Feeder Roads

- Nothing significant to report.
